Suggestions for Using Task Cards

Task cards are incredibly versatile. Once you begin using them in your classroom, you will wonder how you ever lived without them. This set of task cards has 32 Fact and Opinion cards on the topic. I suggest printing them on cardstock and laminating for durability. All cards in this set have a hole punch on the top, so you can easily organize them in a task card storage area.

Here are some suggestions for use:

- Use in centers.** So easy to set up and organize, students will love these centers!
- As homework.** Make a greyscale copy of the cards and send home in place of a worksheet.
- Test prep.** Mix cards from different skill sets and use as a great set of review questions for testing.
- Partner work.** You can either give each student a card together or you can use your document camera to project the card onto your screen so that all partners can see the question at once.
- Board games.** Students earn points for answering a task card correctly.
- Exit slips.** Give students a task card to answer and project the same task card onto the screen.
- Room the Room.** Tape task cards around the room, and students travel with their partners, answering the different cards.
- Tutoring time or individual work.** Students can work down significantly with task cards.
- Interactive Notebooks.** Make greyscale copies of the cards and paste cards into notebooks to demonstrate understanding.
- Line up and transition time.** Task cards can take an extra few minutes while students wait for the next subject!

The possibilities are endless! Enjoy!

Tricky Homophones Task Card Answer Key

1. A) accept	2. A) its	3. B) There
4. A) your	5. B) their	6. A) there
