The underlined words are an example of a:

Answer Keys, Student Answer Recording Sheets, Idea Lists

Suggestions for Using Task Cards

Task cards are incredibly versatile. Once you begin using them in your classroom, you will wonder how you ever lived without them. This set of task cards has 32 Fact and Opinion cards on the topic. I suggest printing them on cardstock and laminating for durability. All cards in this set have a storage area on the top, so you can easily organize them in a task card storage area.

Here are some suggestions for use:

- Use in centers.** So easy to set up and organize, you will love these centers!
- As homework.** Make a greyscale copy of the cards and send home in place of a worksheet.
- Test prep.** Mix cards from different skill sets to create a great set of review questions for testing.
- Partner work.** You can either give each student a card together or you can use your document camera to project the cards onto your screen so that all partners can see the question at once.
- Board games.** Students earn points for correctly answering a task card.
- Exit slips.** Give students a task card to project the same task card onto the screen and use the same exit slip.
- Room the Room.** Tape task cards around the room, and have students travel with the cards, answering the questions.
- Tutoring time or individual work.** Students can work down significantly with task cards.
- Interactive Notebooks.** Make grey pages for students to cut and paste cards into.
- Line up and transition time.** Task cards can be used for extra few minutes while student wait for the next subject!

The possibilities are endless! Enjoy using them!
