Suggestions for Using Task Cards

Task cards are incredibly versatile. Once you begin using them in your classroom, you will wonder how you ever lived without them. This set of task cards has 32 Fact and Opinion cards on the topic. I suggest printing them on cardstock and laminating for durability. All cards in this set are placed on the top, so you can easily organize them in a storage area.

Here are some suggestions for use:

- Use in centers.** So easy to set up and use, you will love these centers!
- As homework.** Make a greyscale copy and send home in place of a worksheet and send home in place of a worksheet.
- Test prep.** Mix cards from different skills and use them for review questions for testing.
- Partner work.** You can either give each student a card or you can use your document camera to project the same task card onto your screen so that all partners can see the question at once.
- Board games.** Use an old board game and have students earn points for answering a task card correctly.
- Exit slips.** Give students a task card to answer and project the same task card onto your screen so that all partners can see the question at once.
- Room the Room.** Tape task cards around the room, and have students travel with their partners, answering the different questions.
- Tutoring time or individual work.** Use task cards to help students work down significantly with task cards.
- Interactive Notebooks.** Make a notebook where students cut and paste cards to demonstrate understanding.
- Line up and transition time.** Use task cards for extra few minutes while students wait for the next subject!

The possibilities are endless! Enjoy!
